

Partner Spotlight

Bluepoint Solutions

Bluepoint Solutions, Inc. headquartered in Vista, CA, provides the credit union industry with high-performance document imaging and electronic records management software. The company is the premier provider of Check 21 item capture at both the branch and teller line. Their Check 21 solutions have already been implemented at over 500 credit union branches and at 300 tellers.

Their products are compatible with core processing systems from key industry vendors such as HFS/Ultradata, XP Systems, Symitar, Summit Information Systems, IntegraSys and others. Four corporate credit unions, such as Wescorp, MidAtlantic, SunCorp, and Southwest, recommend and remarket Bluepoint Solutions' Check 21 software to their members. Bluepoint Solutions' vision for all of their credit union customers is to implement fully integrated, universal document management solutions, thus enabling them to realize the dramatic increases in productivity and member services that can be achieved through the elimination of paper documents. This vision requires specialization and dedication to the technology, and application of this technology.

At Canon's Solution Provider Roundtable event in the fall, Bluepoint Solutions was awarded our DR-Scanner 2005-2006 Premier Partner Solution Provider Top Sales Award (for the west).
